Committee Chair Gilmer

Board of Trustees Financial Affairs Committee April 22, 2025 1:45 p.m.

President's Boardroom, Horace Mann Center

A live stream of the meeting for public viewing will also take place at the following link: <u>https://www.westfield.ma.edu/live</u>

Committee Members Present:, Vice Chair Jason Queenin, Secretary Chris Montemayor, and Trustees Daniel Currier, Theresa Jasmin and Board Chair Ali Salehi, ex-officio.

Trustee(s) Excused: Committee Chair George Gilmer

Also present and participating were Westfield State University President, Dr. Linda Thompson; Vice President of Administration & Finance, Stephen Taksar; Associate Vice President of Financial Accounting, Lisa Freeman; Associate Vice President of Facilities & Capital Planning, Tom Therrien; and Stephen Haines from Fund Evaluation Group.

Committee Vice Chair Queenin called the meeting to order at 1:45 PM, did a roll call of attendees listed above, and stated the meeting was being livestreamed and recorded.

MOTION made by Trustee Currier and seconded by Trustee Montemayor, to approve the minutes of the February 20, 2025 meeting. A roll call was taken and there being no discussion, **motion passed unanimously**.

FY25 3rd Quarter Update

- Two reports: a third quarter budget aligned with a third quarter adjusted calculation and an unadjusted year-to-date report through March.
- Spending will be at least \$132 million this year, possibly around \$135 million.
- Will not be more than the \$148 million spending plan projected at mid-year.
- Reasons for being over budget: debt for residential life and campus, investment in financial aid, new positions, and high part-time adjunct costs.
- Spending last year was up to \$122 million. This year, expecting \$150 million.
- "If you look at the unadjusted year-to-date report, we've already spent \$10 million more than last year at the same point in time. So there's really no doubt we're going to spend at least \$132 million."

FY26 Budget

- Working on the FY26 budget, aiming to complete it by the June 11 meeting.
- Guiding principles: spend within means, separate previously approved projects, and strategic plan should include the budget.
- Board approved the parameters for the planning cycle in December.
- Approved the tuition fee schedule for FY26 in February.

- Fall enrollment update is critical for revenue projections.
- Eliminated rollover funding from the initial FY26 budget.
- Reviewing revenue assumptions and separating grants from the operating budget.
- Capital challenges underway.

Early Approval & Budget Review

- Seeking early approval on items needing a lead time, a small subset critical for repair and cleaning.
- Cabinet reviewing all expense categories after revenue is settled.
- Innovation fund proposals received and under review.

Budget Timeline & State Funding

- Asking for partial capital budget approval today, more to come in June.
- Difficult to predict federal and state processes' impact; 33% of revenue budget is state appropriation.
- Provisional budget model allows adjustments through the summer, updating enrollment projections monthly.

Two-Step Budget Approval

- Provisional budget allows campus to open in July with a budget and respond to changes before final budget in October.
- Final FY26 budget in October, changes could be minor or significant.

Anticipated Challenges

- Deferred maintenance escalating, balancing budget with revenues will be challenging.
- Potential federal funding reductions to the state could impact state agencies and departments.
- Maintaining enrollment is critical.

Fringe Benefit Rates

- Comptroller's office announced fringe benefit rates are down, from 45% to 35%.
- Reduction of fringe benefit rates already accounted for in the budget model.
- Collective bargaining costs have increased, partially offsetting the fringe benefit rate reduction.

University Cash Summary

- Investments increased by \$2.8 million over the last 12 months.
- Cash usage is most significant in the last three months of the year, as most revenues have already been received.
 - Example: March to June of last year saw a \$4.8 million reduction in cash.
- The University has one main operating account, which includes restricted cash.
 - State and private grants, and agency fundraising accounts made up close to \$4 million of that balance as of March 2025.
 - Previously approved, but not yet used, reserve funds are also in the bank account but not available for use.
- Estimated cash decrease by year-end (not including investment accounts) is \$17 million.
 - Large outstanding items make it hard to predict the year-end cash balance.
 - The State is late in processing spring financial aid (estimated \$3.2 million).

Travel Policy (0390)

- The travel policy is being revised to streamline the approval process, primarily for the President's Office.
- The change allows the Vice President of Administration and Finance to approve transactions but requires the Board to approve travel requests.
 - The Board Chair will approve the president's travel requests.
 - Vice President of Administration and Finance will approve transactions related to previously approved requests.
- The main change is on page three of the policy.

- The previous policy required the Board Chair to approve even small expenses, which was deemed unrealistic.
- The revised policy maintains checks and balances while making the process more realistic.

MOTION made by Trustee Currier and seconded by Trustee Montemayor. The Financial Affairs Committee recommends approval to the full Board: To approve the revised Travel Policy (0390), as presented. A roll call was taken and there being no discussion, **motion passed unanimously**.

FY26 Vehicle Lease/Purchase

- Six vehicles are part of the leasing program, and one is a police cruiser purchase.
- No additional funding is requested.
 - Savings from a previous leasing program will offset the cost of six vehicles.
 - The seventh vehicle is budgeted through department funds.
- Approval is needed due to the long lead time for ordering and receiving the vehicles.

MOTION made by Trustee Currier and seconded by Trustee Jasmin. The Financial Affairs Committee recommends approval to the full Board: Motor Vehicle Acquisitions and Replacements Policy (0280) requires that any new or replacement vehicle is approved by the board of trustees. Early approvals are requested for the procurement of seven replacement vehicles to allow the university to place the orders now for delivery in FY26 due to the long lead time and potential cost increases. This motion is to approve the replacement of six university vehicles and include those vehicles in the leasing program. No additional funds are requested as existing savings in the vehicle leasing budget will cover these expenses as described in the supporting details. Further, to approve the purchase of a replacement police cruiser as requested by the Chief of University Police and approved by the Vice President for Enrollment Management and Student Affairs. The estimated purchase price for a new police cruiser with escalation is \$70,991.00. Funding source for this vehicle is from parking fines revenue. A roll call was taken and there being no discussion, **motion passed unanimously**.

FY26 Preliminary Capital Budget

- Requesting pre-approval before budget completion due to state procurement laws.
 - Advance bidding and contract negotiation needed to begin work over the summer.
 - Normal capital budget is about \$3 million.
 - \$2 million for facilities.
 - \$1 million for information technology.
- Seeking \$900,000 pre-approval for projects listed in the packet.

Water Main Issue

•

- Water main issue is a significant issue that needs to be addressed.
- Water is received from the town, and campus closure would result without water.
- A study identified 3,000 linear feet of the water main as 71 years old.
 - This is the primary loop around Scanlon Hall and in front of Bates Hall.
- Phase one of the water main replacement is estimated at \$1.4 million.
 - This addresses about half of the primary line.
- Phase 2 and 3 replacements align with key infrastructure in those areas.
 - A holistic approach is needed for future projects to replace infrastructure.
- Requesting preliminary approval for \$300,000 approved in FY25 and \$400,000 utilized for the study.
 - Finalizing design documents and will submit project approval in June.
- Proposed financial plan:
 - \$300,000 a year for FY26 and FY27 from deferred maintenance capital fund.

- Supplement with \$400,000 of DCAM five-year funds.
- A leak on the south side of Ely Campus Center two years ago initiated the critical need for assessment.
- Water mains over 60 years old reduce size inside the piping, affecting sprinklers and fire hydrants. Budget Process and Board Priorities
 - Board approval does not guarantee project approval, as it will be reviewed at the Cabinet level.
 - The full capital request will go back to the Cabinet to review.
 - "If we don't proceed with these items, there will be substantial negative effects."
 - The Cabinet has a bigger role in the budget process.
 - It needs to be a priority of the board to ensure infrastructure is sound.
 - Deferred maintenance is one of the top three risks.

Infrastructure Priorities

- Board level confirmation needed due to disruption caused by unsound infrastructure.
- Other items include:
 - Horace Mann Center boiler replacement (second one).
 - Fire damper study and testing (compliance issue).
 - Woodward field lighting replacement (phase one).
 - Scanlon Hall project (critical for minor renovations).

Financial Considerations

- Projects are high priority.
- Westfield Gas offers about \$50,000 a year in incentives.
- DCAM Energy to identify key energy projects to replace lighting.

MOTION made by Trustee Currier and seconded by Trustee Montemayor. The Financial Affairs Committee recommends approval to the full Board: To approve a preliminary and partial capital projects budget of \$976,500.00, which will enable the University to begin the procurement process to bid the proposed work for this summer. The projects are listed on the FY26 Preliminary Capital Budget Plan with a brief description. Early approval of these specific projects is critical to solicit competitive bids and award these projects as soon as possible. The full capital budget, including all projects and Information Technology requests, will be provided in June 2025 with the FY26 Previsional Campus Budget. A roll call was taken and there being no discussion, **motion passed unanimously**.

Investment Policy (0430)

Fund Evaluation Group (FEG) Stephen Haines spoke about the following: Proposed Changes - Page 1

- Statement of Purpose:
 - Added "prudent" to uniform Prudent Management Institutional funds law (up MIFA).
 - Replaced "manager" with "advisor" to identify fund evaluation group.
 - Investment Subcommittee:
 - Defined duties for the board of trustees, Financial Affairs Committee, management/staff, and the investment advisor.
 - \circ Deleted the paragraph for the subcommittee for investments.

Proposed Changes - Page 4

- Investment Objectives:
 - Added "reasonable" to the reasonable preservation of capital.
 - Removed minimizing price volatility.
 - Returns of investments should be viewed long term and focus on returns and not necessarily income.
 - Added prudence to diversification and portfolio management.

• Added that investment decisions should be made in a long-term perspective.

Asset Allocation

- Asset allocation mix will be calculated in aggregate balances across the university accounts.
- Targeted asset allocation goals of 60% equities, 40% fixed income remain unchanged.
- Acceptable ranges moved 5% both to the downside and upside.

Shocks and Rebalancing

- The goal is to have flexibility during shock environments, avoiding the need to buy or sell equities or fixed income.
- Rebalancing will be done slowly and deliberately.
- The term "manager" was replaced with "advisor" to include the consulting group.
- Rebalancing will be actively done on the margins, especially during market fluctuations caused by headlines rather than fundamental changes.

Asset Allocation

- A question was raised about the asset allocation ranges, specifically whether it's possible to reach 80% equity given the minimum fixed income requirement of 25%.
- Similarly, concerns were raised about achieving 65% fixed income with a minimum equity requirement of 40%.
- The speaker gave an anecdote about the Fed chair possibly being replaced and how that could shock the system.

Governance Structure and Fixed Income

- The governance structure was updated to the Financial Affairs Committee.
- Focus is on long-term funding in the fixed income section.
- No individual corporate bonds will be bought or sold; this is left to investment managers.

Custom Benchmark

- The recommended changes to the custom benchmark involve the underlying components, while the weightings remain generally the same (60% equities, 35% fixed income, 5% cash).
- For equities, the recommendation is to use the MSCI All Country World IMI Index, which includes US, international developed, and emerging markets, as well as large-cap, mid-cap, and small-cap stocks.
- For fixed income, the recommendation is to use the Barclays Agathon Index, which includes both Treasuries and corporate credits.

Prohibited Investments and Spending Policy

- A tweak was made to the policy on prohibited investments, specifically regarding derivative securities, forward swaps, and futures.
- Direct purchases of these instruments will still be prohibited, but commingled vehicles like mutual funds may use them.
- The investment advisor (FEG) will calculate the annual spend and document it.

MOTION made by Trustee Currier and seconded by Trustee Jasmin. The Financial Affairs Committee recommends approval to the full Board: To approve the revised Investment Policy (0430), as presented. A roll call was taken and there being no discussion, **motion passed unanimously**.

1st Quarter Review

- As of the end of Q1, the asset allocation was 50% equities, 48% fixed income, and 1% cash.
- The cash is earning around 4% in yield.
- The asset allocation has been maintained at roughly 50/50 since the account was transferred to FEG, and this will continue due to market headwinds.

Market Fundamentals vs. Sentiment

- Underlying fundamental data for the market is very strong, but sentiment is weak due to headlines causing nervousness and anxiety.
- Earnings look fantastic:

•

- In Q1, 4 out of 5 S&P names outperformed estimates by a median of 6%.
- Currently, 12% of the S&P has reported, with 76% outperforming by a median of 5%.
- Jobs numbers are higher than estimates, and inflation (CPI and PPI) is lower than expected.
- Tariffs pose a challenge as they could negatively impact jobs, earnings, and inflation.

Portfolio Performance and Strategy

- Despite market volatility, the account finished roughly flat in Q1, down about 40 basis points.
- The account peaked near the last meeting in February and has been protected on the downside.
- The portfolio is overweight in the US (75%) with 25% ex-US, and about half of the fixed income is in Treasuries.
- Diversification worked in Q1, with international developed countries up 7% and emerging markets up 3%.
- The "Mag 7" was down 16% in Q1, while the rest of the S&P was up 1%.
 - The business models of the "Mag 7" didn't change, but they generate about 55% of their revenues outside the US, making them vulnerable to currency volatility.

Fixed Income and Investment Changes

- The back end of the yield curve is not performing as expected, with the 10-year Treasury yield moving up.
- The portfolio is positioned where yields are highest, around two years out on the yield curve.
- Two investment changes were made in the first quarter, both in small cap:
 - Moved out of a passive exposure and into two active managers.
 - Added Hartford Small Cap Value Fund (sub-advised by Wellington Management Company LLC) and Driehaus House Micro Cap.

Outlook and Strategy

- No immediate changes to asset allocation will be made based on current tariff policy.
- "We don't want to be allocating based on those kind of changes in volatility."
- Once there is clarity on foreign policy and trade agreements, they would like to inch closer to the 60/40 IPS target.
- Referencing the 2018 "Trump tariff war 1.0" as a point of reference.

Tariffs and Market Reaction

- Tariffs were placed on four items, causing the stock market to drop 12% in less than two weeks.
- The speaker mentions a leader with a history of "walking you to the edge, holding you over and kind of threatening you that he's going to drop and then kind of stepping back."

White House Meeting and Potential Policy Shift

- The CEOs of Target and Walmart went to the White House to explain the consequences of a 245% tariff.
- The Treasury Secretary hinted at a possible backing off from the tariffs.

Amazon's Supply Chain

- Amazon was contacted to determine how much of their supply chain is sourced through China.
- Amazon reported that "71% of all their sellers in the US source their supply chains through China."
- A high tax on imported goods would affect everyone, regardless of income.

Investment Perspective

• Stephen Haines hopes the tariff threats are leverage and not a long-term concept and believes it would be "very odd for someone to make decisions that are so detrimental in the long term."

There being no further business,

MOTION made by Trustee Currier and seconded by Trustee Jasmin, to adjourn the meeting. There being no discussion, **motion passed unanimously**. Meeting adjourned at 2:57 PM.

* MSCBA debt payment of \$8,076,445.39 was made on 1/31/25.

Total investments increased \$3.03M since 5/31/24, while cash resources decreased by \$6.23M over the same period.

Westfield State University

Financial Affairs Committee

FY25 vs. FY24 YTD Spending Report

June 11, 2025

Revenue

The University's total FY25 revenue May YTD is approximately \$5.8M (or 4.8%) higher as compared to FY24. Explanations for the increase are as follows:

- The increase in tuition and fee revenue in the amount of \$2.4M is mostly due to the increase in Fall 2024 enrollment of approximately 121 full-time undergraduate students combined with the impact of the FY25 fee increases.
- Dining Services and Residential Life combined revenue increased by \$2.7M also due to the increase in students and yearly fee increases.
- State Appropriation increased by \$1.9M due to CBA funding received in February.
- ARPA Funding of \$2.19M was spent down in FY24 and is therefore no longer available in FY25.

Expenses

The University's total FY25 May YTD expenses are approximately \$9.5M (or 8.7%) higher as compared to the FY24 expenses. Some of the most significant expense increases are:

- Compensation (salary, wages and fringe) increased by \$1.2M (or 3%) over FY24, mostly due to collective bargaining increases.
- Due to the change to a higher tuition discount model in FY25, Financial Aid expenses increased by \$1.6M.
- Debt expense increased by \$0.4M in FY25 due to the savings from the MSCBA refunding was a one-time adjustment in FY24.
- Residential Life Expenses increased by \$4.4M year over year, due to debt relief in FY24 which was mainly utilized for Lammers renovation projects to create premium single housing.
- Department Operations increased by \$2.6M year over year mainly due to strategic investments and adjunct costs.

<u>Summary</u>

• At this time, it has been projected that the University will spend between \$136M (+/-) before the end of the fiscal year depending on major factors such as completion of capital projects, payment of collective bargaining increases and receipt of goods.

MOTION

The Financial Affairs Committee recommends approval to the full Board:

To approve the FY26 provisional campus budget, as presented, including, but not limited to the following elements: operating budget, capital budget, vehicle lease/purchase program and sponsorships (\$50,000). Further, to authorize the President and/or the Vice President for Administration and Finance to make budget adjustments to these funds as allowed in the Trust Fund Management Policy (0604).

Westfield State University

Financial Affairs Committee

FY26 Provisional Operating Budget – Planning and Process

June 11, 2025

Budget Planning – Guiding Principles

- Spend within our means (achieved).
- Limit reserves to previously approved projects/initiatives (achieved).
- Strategic plan as basis for resource allocation (in process).

Improvements to Operating Budget Reporting

- Eliminate rollovers from operating budget and minimize rollover requests.
- Shift grants, other trust funds, and student success funding out of operating budget.
- Developed new supplemental report for non-general fund spending.

Budget Process/Assumptions

- President's Cabinet collaborated on budget strategies and methodology.
- Established updated revenue and tuition budget based on increased enrollment.
- Reviewed all personnel and non-personnel budgets to align to available funding. Included by not limited to positions, detailed expense review (e.g., consultants, travel, etc.), contingencies and innovation fund.
- Capital projects were recommended by the President's Cabinet as provided.
- Projected vacancies are assumed in the current budget as not all positions are filled at the start of the fiscal year.
- State appropriation has not yet been finalized but is assuming Governor's budget as a baseline.

Westfield State University

Financial Affairs Committee

FY26 Provisional Operating Budget

June 11, 2025

OVERVIEW

Westfield State University has worked diligently to present a provisional balanced budget of \$132M for FY26. While many adjustments have been made in the new budget, this represents a flat budget from FY25. A detailed review of revenues and expenses was conducted to realign spending within existing resources. The use of campus reserves for rollovers is no longer a part of the operating budget, grants have been removed from the operating budget and operating expenses reduced. These actions allow the campus to present a cleaner operating budget view and better align revenues and expenses.

Enrollment is still a primary driver of campus revenues. Overall, enrollment is projected to increase by 254 students or 6% over this year, primarily due to higher retention rates of current students and a larger entering class from last year. New students are also projected to increase as well slight increases in DGCE undergraduate and graduate students. While early enrollment indications for the incoming class are positive, enrollment will continue to be monitored closely as the final October Budget is developed.

PROVISIONAL BUDGET PLAN FY26

- The FY26 Provisional Budget reflects a balanced budget, which was achieved in large part by permanent budget reductions totaling \$7M as follows: \$2.6M of vacant position reductions; \$1.6M of vacancy savings adjustments; and \$1.2M of operations reductions; as well a \$600k increase in contribution from Dining and \$121k from DGCE. Additional adjustments include \$1.5M in reductions from major categories such as the Innovation Fund, Financial Aid, Campus Contingency, and Funding for Prior Year Approvals.
- The campus is planning for full time undergraduate enrollment of 3,179 billable students on a full year average basis, which is an increase of 212 students (or 7.1%) from FY25 actual enrollment of 2,967. Several factors have contributed to increased enrollment including a continuation of tuition discounting to 30% for entering first year students (and sophomores), FY26 is the second year of increased tuition discounting. In FY25, there was a nation-wide delay in the FAFSA rollout for students and families due to technical glitches and short staffing, for FY26, students are able to apply for the FAFSA without issue.
- Financial challenges are ongoing in Residential Life, as expected, due to lower occupancy and high fixed costs (primarily debt). Occupancy is projected to increase by 89 students from the FY25 Budget of 1,710, which represents 75% occupancy with a design capacity of 2,397. Given that most expenses in Residential Life are fixed in the form of MSCBA debt obligations, cost containment strategies are challenging for housing operations. Residential Life is currently projecting a total deficit of \$4.2M. Lammers Hall will be closing

next year due to building system issues while the University assesses future options. Additionally, one apartment building will be offline this year for the plumbing stack repair project.

- Dining Services participation rates follow enrollment and occupancy levels. No rate increases were proposed this year as new food contracts were coordinated with UMASS Amherst. Dining Services is expected to contribute \$1.7M to the campus to support their overhead costs. Unlike residential life, dining expenses are more variable and based on staffing and food costs.
- DGCE revenue is expected to increase by \$0.6M over the prior year at \$14M mainly due to fee increases. It is assumed that DGCE will contribute \$3.2M to the campus, in support of their overhead costs.
- Use of campus reserves is limited to previously approved but ongoing facility projects (\$2.6M) as summarized in the capital budget and the unspent strategic investment pool of \$1.2M for a total projected reserve use of \$3.8M.

SUMMARY

The FY26 Provisional Budget was developed with the intent of balancing the campus budget through reductions and increased contributions, which took significant effort from the campus and collaboration from the Cabinet. Key revenue indicators such as enrollment and state appropriation will be better known as we approach the fall, at which time the campus will develop a final budget in October. The campus continues to carefully evaluate the balance between affordability, enrollment, and strategic investments while achieving a balanced budget.

Westfield State University FY26 Supplemental Spending Schedule Non-Operations Funding Commitments

Туре	FY26 Funding Commitment	Source of Funds	Description
Capital Projects	\$ 2,661,338	Reserves	Previously Approved, See Capital Projects Summary
Strategic Investments	\$ 1,234,543	Reserves	Previously Approved and Unspent From Prior Years
Other Trust Funds	\$ 300,000	Reserves	Estimated use of fund balance
Student Success Grant	\$ 1,532,795	State	Annual Grant Allocation from State - Year 2
Foundation Funds	\$ 800,000	Foundation	Projected unspent funds from previous years
TOTAL	\$ 6,528,676	·	

Notes:

1. The amounts represent point in time. Due to timing, spending may have occurred in FY25, lowering the FY26 remaining balance.

2. State will carryforward unspent Student Success Grant funding from FY25 - Year 1, exact amount TBD.

3. Federal and State Grant support varies year to year and is estimated to be between \$4M - \$5M.

Westfield State University

FY26 Lease and Motor Vehicle Schedule

Existing Vehicle Summary	Quantity	Cost/ Montl	Annual Cost
Existing Lease Commitments:			
Facilities, Public Safety, Media Services, Mail Services, Catering,			
Information Technology	25	\$9,160	\$109,920
New Lease Vehicles - April 2025	6	\$7,160	\$85,920
Program Service Fee			\$5,496
			\$201,336
FY26 Vehicle Lease Schedule			\$201,336
FY25 Vehicle Lease Schedule			\$201,336
Difference			<u>\$0</u>

Notes:

1. The Board of Trustees approved the leasing of six new vehicles at their April 2025 meeting.

2. We did not request any additional funding for these vehicles because the savings we realized by participating in a one-time sale of Ford vans will cover the cost of these six vehicles.

Board of Trustees

June 11, 2025

MOTION

The Financial Affairs Committee recommends approval to the full Board:

To transfer \$1,253,444.00 from the University's investment accounts with Fund Evaluation Group LLC, to the University's operating account at Berkshire Bank, consistent with the University's Investment Policy (0430), to support the FY25 operating budget, and verified with the financial analysis presented today.

Westfield State University

Financial Affairs Committee

Investment Income Drawdown

June 11, 2025

<u>Overview</u>

The University has invested \$30M of its cash reserves into various investments, including equites and bond funds, currently through Fund Evaluation Group (FEG). To date, these funds have grown to \$38M since the investment strategy was implemented several years ago. The earnings from the investments provide ongoing budget support which is built into the annual operating budget of the University. While the University has not drawn down funds from these investments in the past, we will begin to draw them down in FY25, consistent with the current Investment Policy (0430).

Process

FEG, our current investment advisors, prepares a quarterly projection on the interest income distributions, based on the current spending policy. The spending policy allows the university to draw down 4% of the 12-quarter moving average value of these investments.

For FY25, FEG is projecting the 4th quarter value based on the current balances of \$39,544,343. Overall, the actual 12-quarter moving average calculation is not expected to vary significantly from this projection.

The updated Investment Policy for the spending allocation is extracted below:

"The Westfield State University has adopted the following spending policy, which will apply to the University's investment portfolio.

- 1. This Policy seeks an appropriate balance among the following goals:
 - a. Provide the University with a predictable and stable stream of revenue.
 - *b.* Ensure the real value (defined as purchasing power) of the invested assets and its revenue stream does not decline over the long-term.
 - **c.** Base the spending policy on best practices for similar organizations or market segments (e.g., treat the invested funds as endowment like).
- 2. Authorized expenditures during an upcoming fiscal year shall be limited to four percent (4%) of the average total market value of the investment portfolio over a trailing twelve quarter period ending June 30 fiscal year, not to include additions during the current fiscal year. In the event the average annualized total return for the trailing three-year period fails to equal or exceed 4%, the Investment Advisor shall calculate the new percentage and provide the calculation for review and/or approval to the Financial Affairs Committee for an exception to the 4% threshold. The amount for the upcoming

fiscal year is to be calculated quarterly. The final spending calculation and allocation will be provided as soon as practicable, following June 30th and will be reviewed and approved annually by the Financial Affairs Committee.

- 3. In making such distributions, the University is authorized to use both Net Income and Net Capital Appreciation (defined as realized and unrealized appreciation in the fair market value of the investments) in accordance with the Uniform Prudent Management of Institutional Funds Act (UPMIFA).
- 4. Exceptions to and/or changes in this spending policy shall only be made by approval of the Board of Trustees based on recommendations from the Financial Affairs Committee."

Recommendation

To approve the motion to allow the transfer of interest income from the investment portfolio to the University for FY25 as represented in the FEG projected calculation.

Board of Trustees

June 11, 2025

MOTION

The Financial Affairs Committee recommends approval to the full Board:

To approve revisions to the Westfield State University, Board of Trustees, Financial Affairs Committee Charter, as presented.

BOARD OF TRUSTEES FINANCIAL AFFAIRS COMMITTEE CHARTER

I. Mission

The Financial Affairs Committee shall oversee all of Westfield State University's (WSU) finances, including financial controls and accounting systems in a transparent manner. It shall oversee the financial, legal and ethical integrity of WSU's financial records and financial reporting processes for WSU's operating accounts, reserves, capital assets/projects and all other financial matters consistent with Generally Accepted Accounting Principles (GAAP) and Governmental Accounting and Standards Board (GASB) as well as Massachusetts General Laws.

II. Authority and Responsibilities

Policies

Establish, review, and update financial and investment policies for approval by the Board.

Oversight of Implementation

The Committee shall review the development of annual/multi-year all funds operating budgets prepared under the direction of the University President and Vice President for Administration & Finance and make recommendations to the Board of Trustees regarding their approval. The Committee shall review and monitor quarterly operating reports of income and expenditures and monitor compliance with WSU's investment policy. Major budget variances, significant trends or financial concerns shall be communicated to the WSU Board of Trustees in a timely manner.

The Financial Affairs Committee shall review proposed major financial transactions that are not included within Board-approved budgets. Proposed variances with recommendations shall be submitted to the Board of Trustees for approval.

The Committee shall also make recommendations to the Board in selecting the financial advisor for University investments and shall oversee the <u>investment</u> advisor.-in <u>coordination with the Investment Subcommittee</u>.

The Committee has the authority to establish subcommittees and/or working groups to monitor or focus on a specific topic or activity as deemed appropriate. A committee charge, membership, duration, and outcomes will be established if/or when such working groups are established and will report back to the Financial Affairs Committee on a regular basis.

Evaluate Performance

Review overall investment performance, asset allocation, and risk tolerance for short and long-term investments. It shall cause to be prepared and submitted to the Board of Trustees at least once a year an audited financial statement of WSU's financial condition.

Educate the Board

Board motions should contain enough background data to make an informed decision to properly carry out the Committee's fiduciary oversight responsibility. Further, Board materials should be sent in advance of all meetings. Adequate time should be allowed for discussion on substantive issues presented to the Committee.

III. Organization

Review of Charter

This charter shall be reviewed and reassessed by the Committee annually, and any proposed changes shall be submitted to the Board for approval.

Membership/Structure/Quorum

The Committee shall consist of at least five members. The Committee chair shall be appointed by the Board chair. Committee members should ideally have financial, investment, or business expertise. Committee membership shall not exceed the maximum term(s) as identified in the current bylaws.

Staff Liaison

The president shall designate a member of the University's senior administration to serve as a liaison to the Committee.

Meetings

The Committee shall meet in advance of each Board of Trustees meeting unless the Committee chair and Board chair determine that a meeting is not necessary. A quorum of any meeting of the Committee shall consist of a majority of its voting members. Committee members may participate by teleconference as permitted by state laws. All meetings will conform to Massachusetts open meeting laws.

Agenda, Minutes and Reports

The Committee chair, in collaboration with the staff liaison, shall be responsible for establishing the agendas for meetings. An agenda, together with relevant materials, shall be provided to Committee members at least five days in advance of the meeting. Minutes for all meetings shall be drafted by the <u>staff liaison or designeeassistant to the Board of Trustees</u>, reviewed by the Committee chair, and approved by Committee members at the following meeting. All meeting materials will be posted on the University's website within 14 days after each Committee meeting, to ensure transparency of Board actions and oversight of the University.

Financial Affairs Committee

Board of Higher Education – Trust Fund Guidelines

Sponsorship Process

No: BHE F01-27 - June 19, 2001

The Board of Higher Education (BHE) establishes Trust Fund Guidelines for all public higher education entities in Massachusetts. The guidelines have not changed in several years and were last updated in 2001.

The Trust Fund Guidelines require approval by the Board of Trustees for certain University expenditures. Under Categories of Expenditure, Section II – E, the guidelines state that "Outright contributions to charitable organizations are prohibited. However, where attendance at a charitable dinner or event will further the public purpose of the institution, expenditure may be permitted subject to prior approval by the Board of Trustees." In operationalizing this standard, the Board of Higher Education recommends local Boards establish a ceiling for such expenditures.

For several years, the University has used the following two-step process to meet the intent of this requirement in the Trust Fund Guidelines.

- 1. Annually, the University seeks Board approval for a sponsorship budget as part of the annual budget process. While this amount may vary year-to-year, it is the guideline used to establish a ceiling for sponsorships that align to the annual budget. The current sponsorship budget is \$50,000.
- 2. At the end of each fiscal year, the University provides a detailed listing of sponsorships to the Board of Trustees as a function of meeting this BHE requirement.
